

# 2014 International Forum for Law Students

**Sponsor: Renmin University of China Law School  
Indiana University Robert H. McKinney School of Law**

**May 24, 2014 Beijing, China**

## About the International Forum for Law Students

The International Forum for Law Students was created to provide an opportunity for law students from around the world to investigate and engage a topic relating to the law, the legal profession, or legal education in a globalized world. Students who participate in the Forum make presentations to an audience that includes fellow law students, law professors, attorneys, judges, and government officials. The presentations can be in the form of Power Point presentations or submitted papers.

The Forum is held each summer at Renmin University of China Law School in Beijing. The first Forum was held in 2010 and has grown each year. The fifth Forum, held in 2014, attracted students from ten countries: Australia, China, France, Germany, Japan, Republic of Korea, Republic of Mongolia, South African Republic, Switzerland, and the U.S.

This volume contains the Program from Fifth International Forum for Law Students and copies of student presentations.
